Subject: quick update and question on GSDT uploads

Hi Calvin and Shari,

I hope this email finds you well.

We are working to upload the revisions to our Class VI permit, as discussed. We are going through each of the modules in the online GSDT and updating as necessary. As with the last round of updates, we are uploading the revised documents, e.g. Project Narrative, Attachments A, B, C, etc. to the appropriate modules of the GSDT, e.g. Project Information and Tracking, Area of Review and Corrective Action, etc.

For the file uploads, I noticed our previous two submissions are still stored on the site, i.e. original submission from Feb-2020 and latest revision from Sept-2021. I tried to delete the older versions but was unable to (error message). Please let me know if I should be able to delete the earlier versions – I can reach out to the GSDT help desk if so.

If not, that means there will be three versions of each of the application documents, i.e. original submission from Feb-2020, revision from Sept-2021, and now March-2022.

For ease of review, we have used green font to show the revisions from the last submission - similar to what we have done in the past.

Currently, the only document planned for submission to the “Information Request” module (Request #8) is the Cover Letter for the submission.

Recall, financial assurance updates (e.g. the ‘Financial Responsibility Demonstration’ module or Attachment H) will not be submitted at this time. We will look to set up a follow on call in the coming weeks to discuss.

Also, no confidential business information (CBI) will be submitted through the GSDT. We will coordinate with you to submit a version of the Project Narrative with CBI, via secure means – again, similar to what we have done in the past.

We expect to complete our uploads to GSDT and submit by this Friday, 18-March.

Please let us know if you agree with this approach and if have any questions.

Thank you again.

Best regards,
-Rebecca
